

Corporate Social Responsibility Statement

NSR'S stance on Corporate Social Responsibility is simple: to be a productive and respected corporate citizen, we must acknowledge our part in protecting and supporting the citizens of the areas we operate in.

To meet our social responsibilities, NSR vows to:

- Donate to charities which support safety and wellbeing
- Support local businesses through localised procurement
- Sponsor local school and community events at every opportunity
- Look out for the safety interests of not just our clients but also the general public
- Create diverse and inclusive workplaces, where our staff feel heard, respected and valued
- Ensure the utmost safety of our clients, staff and the general public, in the work we do and the way we do it
- Engage in environmentally sustainable practices wherever we can, from using green energy to recyclable waste management
- Acting with the utmost integrity and ethics in all that we do
- Adhere to all legal and best-practice requirements and guidelines at all times
- Continually finding innovations and improvements in the way we operate
